**LIST UPDATED - 12th FEBRUARY 2020 - CLAIMS FOR FISH NOT LISTED REMAIN OPEN**

New Record claims must be brought to the attention of the RNRMAA Sea Secretary as noted on the Facebook and WhatsApp Groups stating the date and place of capture and the species of fish caught. Once a photograph has been received by the RNRMAA and its identity established, the claimant will be informed of how to submit a Record Fish claim. He/she will then have 56 days to complete the claim and provide the necessary evidence for the fish. Fish caught at sea will be eligible for consideration as a RNRMAA Record if the boat used has set out from, and returns to a port in England, Wales, Scotland, Northern Ireland, The Isle of Man, the Channel Islands or any port in the United Kingdom without having called at any port outside those countries. Fish caught in the territorial waters of other countries will not be eligible. Shore fishing means fishing from any land mass or fixed man-made structure. In case of doubt the RNRMAA will classify a claim on the information provided. Fish must be caught on rod and line with any legal hook or lure and hooked and played by one person only. The full procedures for claiming a New British Record are available on the Angling Trust website. ([www.anglingtrust.net](http://www.anglingtrust.net)).
